

Classic Rectangular sign system

Product Details

Signface constructed from reinforced PVC with a reflective coating protected by a clear PVC top layer. Sign symbol printed on the inside of the clear PVC top layer and therefore also protected.

Concealed bar in top of sign panel hooks onto "mouse ear" on tripod. Springs provide the tension required to ensure signface is kept taut.

Signface can feature facility to fix a variant which change the sign message. Variants fix to signface using rust-proof-press-studs.

All metalwork is heavy duty bright zinc plated to prevent corrosion.

Press stud strap holds signface neatly rolled-up when in storage or transportation. Includes product information such as sign diagram, size and class of reflectivity (standard UK spec product only).

Weight hook on back leg of tripod for hanging ballast if conditions are volatile and additional stability is required.

Ground clearance of 300mm as specified by UK road sign legislation (signs for the Police market however, are generally specified with just 75mm ground clearance)

Bar in bottom hem of sign panel extends to hook under spacer bolts on front legs of tripod.
